February 6th, 1914

Dr. Dwyer,
734 Spadina Avenue,
Toronto.

Dear Dr. Dwyer:

After our meeting on Saturday with regard to the relations between the University and St. Michael's Hospital it seemed to me that the next step would be for the Board of St. Michael's Hospital to request an interview with the Hospital Relations Committee of the University in order that together they might discuss the relationship between the University and the Hospital. If you will convey this to the Chairman of your Board and he will send a communication to the Governors before next Thursday, I hope that we may have the matter attended to very soon.

Yours sincerely,

President.
